

Reacts can be used to facilitate virtual visits with your health professional.

This document shows the steps to follow to access your virtual appointment using the Reacts application.

A- Log in to Reacts

Important: You must first sign up for Reacts using the registration email sent by your health professional.

1. Click on the Reacts icon to open the application.
2. Enter your email address and password.
3. Click on **Login**.

B- Join a scheduled virtual appointment

1. Click on **Appointments**.
2. Join your appointment by clicking on the circled arrow.

Your health professional may join the session after you. A message asking you to wait is displayed.

Once your professional joins the appointment, your virtual visit begins.

3. Click on the **Hang Up** button to end the appointment.
