

Reacts can be used to facilitate virtual visits with your health professional.
This document shows the steps to follow to access a virtual appointment using Reacts Web.

You must use the Google Chrome Web browser.

A- Log in to Reacts

Important: You must first sign up for Reacts using the registration email sent by your health professional.

Open this link <https://reacts.com/en/account/login> in your Google Chrome Web browser.

1. Enter your email address and password.
2. Click on **Log in**.

B- Join your virtual appointment

1. Click on **My Appointments**.
2. Choose the appointment you want to join and click on the circled arrow.

A window opens inviting you to test your audio and video settings. If everything works correctly :

3. Click on **Apply**.
4. Click on **Enter virtual waiting room**.

Your health professional may join the session after you. A message asking you to wait is displayed.

Once your health professional joins the appointment, your virtual visit begins.

5. Click on the **Hang Up** button to end the appointment.
